Re: EE Consulting Services

Dear Mr. Green:

I want to express my gratitude for the excellent service you have provided for Cattaraugus County over the years. Your program has made a big difference in our energy budgets and have assisted in keeping our energy costs in check.

I would also like to compliment you on your professionalism and knowledge in energy related matters. To date, your program has provided large energy savings for the County, saving valuable Tax dollars and doing our share in keeping with our environmental goals.

EE provides a comprehensive knowledge of energy related issues, a willingness to share that information and personable approach to our partnership. There is no question other Counties, school districts, businesses or organizations can benefit from EE's Energy Management Program.

Please feel free to use this letter as a reference for any future clients. I would highly recommend your services to anyone without hesitation. I am confident that they would benefit from your expertise and energy management program.

Sincerely,

*Duane Hill*
