

Perry Central School District

PERRY, NEW YORK 14530

November 15, 2007

To Whom It May Concern:

I have had the pleasure of working with Energy Enterprises, Inc. for approximately eight years while employed as the School Business Administrator at the Perry Central School District.

During this time, Energy Enterprises has provided the district with a variety of valuable services which include the following:

- ◆ Monthly energy analysis and billing review
- ◆ Annual energy budget development
- ◆ Energy curtailment opportunities
- ◆ Mediation with utility companies
- ◆ Attendance at Board of Education meetings
- ◆ Energy services bidding

Energy Enterprises has always provided prompt and extremely valuable information as the district navigates the mazes of energy utilization. The energy savings that the school district realizes begins with the work completed on our behalf by Energy Enterprises.

I may be contacted at 585 237-0270 ext. 1004 for any additional information concerning the work completed for our district by Energy Enterprises.

Sincerely,

Michelle Widdel
School Business Administrator
